in this book anne maguire examines the psychoanalytic relevance of evil using case studies and examples she examines how sin may find calamitous expression and the consequences which can flow from its covert pre existence pride anger jealousy sloth lust avarice and gluttony are as old as mankind itself however in the sense in which they were originally understood interest in the seven sins has withered with the elapse of time today ideas about sin and evil as taught by the theologians of the early church seem dated and alien however when thought of as psychic representations of the dark side of human nature as c g jung defined it the seven deadly sins acquire relevant new meaning

in this fascinating book kenneth baker explores how the seven deadly sins pride anger sloth envy avarice gluttony and lust have shaped history from the greek and roman civilisations through their heyday in the middle ages when sinners really believed they could go to hell for all eternity to the secular world of today where they are still an alluring and destructive force today most sinners are punished in this world not the next black pride and gay pride have made tens of millions more understood and more accepted but the overweening pride of certain leaders hubris has led to wars and devastation hitler in russia the japanese at pearl harbour saddam hussein in kuwait and blair and bush in iraq anger when righteous can be a virtue which helped to end the slave trade in the 19th century and to expose child abuse today but there is still personal anger in domestic violence and daesh terrorism sloth can be an amiable weakness as tennyson said ah why should life all labour be but the rewards go to the energetic envy is the mainstay of the global advertising industry encouraging everyone to improve their lives but it is also a secret vice a self destroying morbid appetite avarice has led to better living conditions for many people but also to the great depression the financial collapse of 2008 and to 1 800 billionaires with the combined wealth of us 6 48 trillion gluttony is not a sin but a destructive ailment leading to obesity bottle noses bleary eyes grog blossoms and breath like a blowlamp lust that demands immediate gratification is clearly still a sin whether paris abduction of helen of troy or websites that encourage marital infidelity or the fate of many politicians as kipling said for the sins they do by two and two they must pay for one by one this book is lavishly illustrated from medieval manuscripts to picasso and kenneth baker has drawn on his knowledge of cartoons down the ages to include a few by gillray rowlandson bateman eric gill and today peter
